M.S.

1. Health.

Seems robust now.

Has had many diseases.

Seems to be affected by heat.

2. Mentality.

Very well-spoken of.

Seems to see through things quite readily.

Depth ?

Width of interest ?

3. Social characteristics.

Has strong temper.

Has critical attitude toward people, and strong, seemingly unreasoning likes and dislikes.

Seems to have a certain clannishness, or *exclusive* affection for groups with which there is some natural trait in common, that is foreign to my nature.

4. Spiritual qualities.

Very deep and genuine consecration.

Highly sensitive conscience.
