

I believe that now I should save my energy for writing. Consequently I do not now do much outside speaking, except when there is a particular opportunity to advance the seminary or a particular opportunity to give college or seminary students material that not many could give them. Otherwise I believe that most of my energy should now go into writing.

Q: Would you visit Singapore if you had the opportunity?

A: Thirty years ago I would have greatly loved to do that. Now I feel that my energy should go mainly into writing.

Q: My last question is, what is your opinion about Dr. Timothy Tow and Dr. Quek Swee Hwa?

A: Both of these excellent men were students in my classes and did excellent work. I have always admired the deep consecration and earnest diligence of each of them and am proud to have had a part in their training. After they finished the work at Faith Seminary they both went on to other training and to practical activities for our Lord. God has greatly blessed them, I am thankful to have had a part in the training of these two outstanding Christian men.
