

considerable
 tht if he ~~was~~ should be elected moderator he ~~would~~ would then have to do a considerable
 amount of traveling;; and he would need me to assist him in carrying on the work at
 Princeton Seminary. He said also that if the modernists should succeed in getting
 control of Princeton Seminary, then there was a possibility that they might try to
 start a new seminary, and in that case that he would certainly need me to assist him
 in that endeavor. When I got this news my plans were naturally thrown into confusion.
 I could not make definite decisions until an answer was obtained to these two questions.
 If we was should not be elected moderator, and if he continued should continue
 at Princeton under the conditions that had prevailed before, it would then be possible
 for me to stay another year in Berlin. ~~When~~ When I realized this situation I tried to
 get information as to whether the those had happened. IN Berlin I could have
 access to The New York Times. However, when I began to look, T he NYT° had already
 not yet given an account of the General Assembly, so I did not know whether he had
 been elected moderator o r or whether a change anything had been done about
 changing the control of Princeton Seminary. There was also available in Berlin a
 paper called the Paris edition of The New York ~~Times~~ Herald-Tribune. This paper,
 far smaller than The NYT°, gave information about current events in the US°. I did
 not know whether it would say anything about the Pres° GA°, but when I began to look
 for it, that event had already occurred. It was too late for any copy that I could
 find to give information/ ^{about it,} even supposing they would tell. Consequently I was in a
 state of considerable uncertainty. Then I received a letter from Dr. Allis, saying
 that the modernists had gained control of Princeton Seminary, that he and Dr. Wilson
 and Dr. Machen were ~~joining~~ joining together in an effort to start a new seminary in
 PHila°, and that of course Dr. Wilson that I would doubtless hear soon from
 Dr. Wilson, because ~~if~~ "of course Dr. Wilson will want you to be his assistant in
 the new seminary." The purpose of Dr. Allis' writing me was to ask me to go to the
 second-hand/ theological book stores in/ Leipzig, a six-hour railroad trip from Berlin,
 to get some second-hand books and send them to him. I went to Leipzig and
 purchased as many of the particular books Dr. Allis desired as I could find and
 ordered them shipped to him, and expected a letter from Dr. Wilson. Time went on and
