were surrounded by and every one of them were killed and then the Emperor

hated   . This city is to be now called E   cap   , a city dedictated

to the Jews. No Jew may come within 5 miles fo the city on payment of death

and Jerusaleum was   . So the rest of the time of the Roman Empire

up to the time of Constantine . Constantine was a Christian and natu ally

a Christian   were made   and   (3)   And then after the death of

Constantines son, a cousin named Julian became Emporer, a man who wanted

to go back to old heathendom because Julian   . And Julian was a

trained Greek Philosopher and he was anxious to convert everyone back to

Paganism. And he knew that one the blood of the maryters had been the

seed of the church and he didn't want to persecute. He would have if

he had lived long enough, I'm sure/ by logical But at first he didn't want to

persecute, He just wanted to make it uncomfortable for the Christians.

But he made   churches give back, laws like that, But then he said

I must find a way of convincing people Christianity is wrong. And he

read this statement, and he said if we can prove that this statement

is not true, they will know Christianity is wrong. And so the Emperor

Julian set out a proclamation that the Jews were to be allowed to rebuild

their temples in Jerusaleum. And he send the proclamtion all through

the Empire he said it would be a help to the people of Jerusaleum.

And the Jews came together and got help from the   treasures and when

the day came when they began to start to rebuild the temples of Jerusaleum

and Jerusaleum was no longer trod under foot of the Gentli s. And the day

came when these wealty Jews were there and   with small shovels of gold

and silver   as symbols of the excataion   a great occasion of it and

we have accounts of it from the very last year, Sermons given the very next next

which describes thin s of the past. But it seems to be absolutely

unquestionable what happened. And so when the work began that gas began

to pour out of the holes which they made and there came a series of explosions

and fires as the workman were driven away by it and found it necessary to
