

not seem exactly accurate to say 150 years later than Isaiah to say that Isaiah said it. Now in Matt. 8:17 we find there that Matt. is again speaking. Jesus cured sicknesses in order to fulfill what the prophet Isa. said and is towards the end of the so called 2nd Isaiah. Now if these quotations were from what everyone says is Isaiah, you might say that they don't prove anything but these are from the portion of the book that comes from the great unknown author, as the critics say. He doesn't say that it might be fulfilled as found in the scroll of Isaiah but which was spoken by Isaiah the prophet and if he didn't then here is definitely a lie. Matt. 12:17--this may be Matt. again speaking and here again we have not what was written in the book but which was spoken by Isaiah and is quoted from Isa. 42--from 2nd Isaiah so-called. Matt. 13:13--we find in this case that the Lord Himself is speaking--in them is fulfilled the prophecy of Isaiah and is quoted from Isa. 6, the last part. Then we have one _____ You hypocrites--well did Isaiah prophesy--Isa. 29:13. Those are the quotations in Matt. that refer to Isaiah by name though there are others. There are two by Christ in the first Isaiah and three by Matt. from the so called 2nd Isaiah--first, middle and end of it. Mark 1:2, 7:6--Isaiah the prophet is mentioned. Someone pointed out that in Matt. 3:3 something is quoted from Malachi also as well as Isaiah.

198 -- All from A-G for next Thursday. It is based upon Phiffer's Intro. to the O.T. take pages 452 - 462--that is eleven pages which deals upon the date of Isa. 40-66. There are two things that I would like you to write up. (1) Briefly outline these pages and give the gist of but you don't have to bother with who holds the views but simply what views are held. (2) What is stated about the views of C.C. Torrey, Duhm, Marti, Kunen, Mowinckel and Volz? Now there is no reason that this assignment should take more than two hours but I would recommend you, in order to save time to do it this way. Take a sheet of paper and put these names down on the sheet of paper and then as you go through making your outline, you simply mark against it the number of the page and I imagine the page as divided up into ten parts --455-5 means somewhere near the middle but if you do that as you do your outline, then it would be very simple to go back and find that Kunen is $\frac{1}{2}$ way down on page --see what is stated about these men and outline the pages briefly. The lessons for the same group is Isa. 42:6,7;49:1-6 in the Hebrew. Then
