

that your fruit should remain. There are too many Christians who think they are serving God who go to church and get some food, and go to church again and get some food, and go to a Bible conference, and get some food, and go to some more and get some food, and ~~there~~ they are always taking in, and they are always taking in, and they ~~are~~ always taking in, and they never think about bearing fruit. God did not leave us in this world simply to take in, simple to feast on His Word, simply to understand more about His truth, simply to advance in understanding and in knowledge. He left us here to bear fruit, and if your are not bearing fruit now, and if you~~r~~ are not definitely planning and working so that you will bear fruit~~s~~ in your life in the days to come, you had better get back to fundamentals and ask whether you have really been saved, whether you are really are a child of the Lord Jesus and are following Him. Because the one that He has called, He has ordained that He should bear fruit, and if we are not definitely heading toward bearing much fruit in the future, and bearing some fruit right now, it is highly questionable whether our lives are worth anything in the Lord's service. A man is like a tree planted by the rivers of water that bringeth forth his fruit in his season. Well, that doesn't mean that you have right away to accomplish all that some other people ~~accomplish~~ accomplish in a long time in years to come. Somebody else brings forth a great deal of fruit right now, and perhaps a little later. God may have a season for your great period of fruit bearing. You will bear some fruit now, but you will bring forth your fruit in your season, if you truly are serving the Lord. Now, Revelation has a very interesting word, this tree bears twelve manner of fruits and yealds their fruit every month, every month some trees bear some fruit, but there are different kinds of fruit. There are twelve manners of fruit. And what an encouragment ~~men~~ that is to some of us. I see a man like Martin Walsh who I hope will come up here and speak to us one of these days, director of the John 5:24 mission down here, a man who does not have much education, not much formal, he's got a brilliant mind, but not much formal education, a man who has not put in the years of ~~study~~ study that I have on the work, but Martin Walsh can step out and presch to a sinner, and he dan lead the sinner to the Lord in a wonderful, and I see the way God has used and is
