place, this place was on the right side of the tracks. They were invited
again after they had this place. Well, back then it was a big beautiful
house people built to interest the neighbors. And today it is more apt to
be the car that they buy to impresses the neighbors. But this means, what
do people think of me? How are people going to accept what I do? The ....
9..... main spring of human action.....9...., and when we get into the family
of God, it is not one of those things which goes along with us, and we try
to recognize it, and it can be used for good in our dealings with others,
but it is something which God wants us to look into our hearts ...9½....

I had done it. But I have refused to do it, because I have said I am not
going to do religious services to please men, that they may think well of me.
I think the Lord wants us to look at all we do and think of it, are we
doing it to please men? Or are we doing it to please God? What do people
think about me? Anybody would tell you that ....11¼..... the matter of ,
saving faith is one of the most characteristic and outstanding features
in the people of the orient. Well, in South America in a way, in a different
direction, I have heard it said that down there in a book on travel.....11½...
the old Inca capitol, and that there he found there were a group of mission-
