

He is going to ~~z~~ give us a particular time that we ask for a particular situation in ~~z~~ ~~lift~~ life. God leads; there is ~~not~~ no question of ~~z~~ His leading, but God determines what are the points ~~in~~ <sup>at</sup> which ~~z~~ He wishes to lead us in a ~~z~~ special way. And ordinarily He does not use extraordinary means of leading His people in this age. Why is it? I think when we study the Bible we soon find that what God is looking for is not machines. God does not machines. Look at the wonderful ~~machin~~ machines that human beings make. They make planes that ~~z~~ can fly without a pilot. They make machines that can do the most complicated mathem~~atic~~s calculations. We make all sorts of mach~~in~~es. We turn a button and it turns this way. We turn the wheel and it goes that ~~wy~~ way. God could make all the machines He wanted. God could fill this earth with machines that could go here and there and do exactly what He wanted them to do, but that is not what God ~~chose~~ <sup>chose</sup> to do. God desires human beings who would use their minds, who would use their intelligence, who would use all the qualities that he gave them and would use ~~z~~ them in order to find our how to accomplish the things that ~~z~~ He wanted them to do. He did not ~~want~~ want ~~reg~~ robots. He wanted beings with their own personality, their own minds, not that He would press a button and they would go forward to do His will but who would do His will because they loved Him and they ~~were willingly devote~~ <sup>wished to be</sup> devoted to Him. So God want s ~~z~~ human beings who will love him and who ~~we will z~~ endeavor to do what is for His glory ~~w~~ rather than machines ~~w~~ in which you just press a button and they go this way and ~~that~~ that way, and therefore you ~~can not~~ cannot expect that God will tell you <sup>whether to eat the pork chop or the fish.</sup> ~~what is to be the fourth stop z or the fifth stop. - Now, there may be places where it -~~ Be- Now there may ~~z~~ be cases where it may be the most important question of your life whether you eat the pork chop or the fish because one of them may be spoiled. Like a couple of weeks ago, there were hundreds of people sick and dozens died from spoiled fish that had been <sup>sent out of Michigan</sup> ~~done up~~ and ~~nob~~ nobody knew about
