The production of the United States is more than ~~that of~~ every other country
put together. The next greatest, I believe, is Russia, which is about ~~one-~~
~~third-~~ a third that of the United States. And all the world put together
does not produce as much as the United States government, ~~and-~~ That is not
because our resources are greater ~~than-~~ or more than other nations. We have

in wrong, those who believe in God, ~~is~~ and those who deny God. And ~~that~~
is what we are moving toward and we are moving toward it rapidly, and so
everyone has the responsibility to glorify God and to follow the precepts of
God's Word, but how many are shirking that responsibility and turning away
