

might have been ~~fairly~~ quite considerable, but ^{the} Elisha will ~~have~~ have some effect, ^{and} will have some lasting effect, but nothing like what it will be if it follows ^{an} Elijah. And so God worked here in ^{this} ~~such a~~ wonderful way, Now.

Sometimes ^{there is} one personality ^{that} can do both types of work. Sometimes there is ^{the} one who can make a great evangelistic appeal who can make ^{the} a great confrontation with the forces of the evil, who can make the great demonstration of the power of God, and ^{then} can follow it up with a steady, faithful constant work, as Elisha did, but it is comparatively rare, because ^{no} great qualities of both types are not extremely common, and for ~~one~~ one person to be able to do both types of work is not common, but how ~~is~~ easy it is for ^{the} Elisha to pick ^{the job} Elisha to pieces ^{and attack} to find faults, and say, Look at all the the things I

would do if I were in ^{this} place. When I hear people taking a great man of God who has great abilities ^{as we} and some faults ^{which} all do, and then pick him ^{up} to pieces that way, ^{and} saying what he ^{is} doing, they are displeased

^{place} with. I always think of that old story about the time when the birds decided to see which one could fly highest, and so all the birds got on the earth and started out to see who ^{could} ~~can~~ fly highest, and they went up and up and ~~up~~ up into the air, and one after another dropped off until finally the eagle was

way above all the rest, and he had gone just about as high as he could go, and he could see that he was ahead of everybody, ^{he could see and he} He decided, I might as well go down. But he did not realize that a little sparrow ^{had} got on his back, and so

when he stopped flying, this sparrow started flying and this sparrow went ^{up} a little higher and ^{the} the sparrow came down to the earth and the eagle said, I flew the highest, and then ~~the~~ sparrow said, No, you ~~did not~~ did not.

I flew two hundred feet higher than you did. The eagle went up two miles and
