

~~N/~~ ~~a~~ You should not use medicine. Now there~~d~~ are those ~~s~~ who say you should not use medicine, for if God wants to heal ~~it~~, He can heal ~~it~~.  
Certainly God can heal without medicine, and God sometimes heals with-  
out medicine. But it is God's will that we use whatever means are available~~x~~  
in our generation to help<sup>to</sup> make our life better, and our work more effective.  
And there are means which can improve our physical ~~attention~~<sup>condition</sup>, improve  
our efficiency, improve our ability and Elisha was able to get ~~this~~ calmness

he would not even speak to him, if it was not for Jehoshaphat ~~being~~<sup>being</sup>  
here who, though he is in bad ~~company~~<sup>company</sup>, ~~he~~ still is a godly man.
