

yet, there is very little in this world that *succeeds*, that is 100% wrong. The thing that is 100% wrong just perishes, but usually there is something right in the thing that is enabled to exist and then it brings'./'. what is right, and so in anything that makes progress in life you can usually find something good, and the result of good may be ^{evil} but you can perhaps learn from these good and can advance good with it. And they say, we should be fraternal workers. The fact is that we do not go from a Christian nation where they are all Christians to tell that these ⁱⁿ benighted heathens out there are ~~under~~ darkness, and how they can find something good. No, we go from one part of ^{satan's world} ~~the statement~~ to another part of ~~the statement~~. Satan's world. ~~We for go into one part of satan's world to another part of satans' world--~~

We go into a part of satan's world and- which has made a great progress, because it has been fortunate to have the preaching of the gospel and to make steps forward beyond what the opportunities these other parts ^{have had,} of that, and we have to go and show them how ~~we can~~ they can ~~not~~ make progress, too, and how they can know Christ, but ~~w~~ if we can approach them with the spirit of fraternal workers. Although we have the truth, we approach them with questions, we approach them with ^{acting and} ~~showing~~ showing and/leading them ^{then} ~~along w~~ their thought ~~and little bit~~ along a little bit, they will come to the conclusions that are necessary and desirable, and ~~it~~ ^{then} when they come to them, they are their own conclusions. Then they will stand for them much more ^{if} ~~...~~  than we would lay them down ... to them.

They say that Colonel House was the great worker in Wilson's administration, because he would come to ^{Widrow} Wilson and he would just implant ~~of~~ ideas in his mind without Wilson ever knowing ~~is~~ that they were there. And then
