

which are important and vital to us. Here the Israelites came to this place , and they went three days and they found no water. But the answer which they found in this case is simply, <sup>They</sup> ~~that~~ moved further. They moved on, they moved on and did find water. And very often in our experience when we lack something that we badly need, when we don't find spiritual food, we need to move on to another place where we can get it. Many a person who has been raised in a church where they had abundance of spiritual food with a fine presentation of the Word of God Sunday after Sunday <sup>who have been</sup> has found the situation in the church gradually changing as people have come in/  
 trained where they believed another gospel which is not another, and people don't realize what is wrong, but they are not getting the spiritual food they need, they are not getting the water of life, and ~~if~~ they just stay there and stay there and stay there and put up with it and then they wonder why their children don't seem to have interest in spiritual things and why their children are not growing. When we do not have water, we can often simply solve it/<sup>simply</sup> by moving on in our journey, simply by going on to another place and so this is <sup>their</sup> ~~there~~ first experience with water. They found no water. But they moved forward, and they found it. I think we need to realize that in so many experiences in life, we simply need to go further, we need to move away from the place where there is no water. We must not get tied to human situations so that we stay where there is not that which meets our need. We must move on no matter what it costs.

Some years ago I used to go to colleges. One Christian college in particular <sup>at</sup> I used to go and spend about a week there and talk with students. And/<sup>at</sup> that time ~~time~~ in that particular college there was ~~find~~ very fine Christian teaching in most <sup>of the students</sup> of the classes and great numbers/<sup>of</sup> desired to make their lives count for the Lord. And many of the students used to come and study with us, but there were some who went to institutions that had great ~~big~~ names and great prestige, and that had been great institutions 10 yrs. before but had now departed from the faith. And I wonder <sup>that</sup>
