

worked in that line. And I know others ~~xxxxxx~~ who with whom it is exactly reversed.
(not clear)
We should learn in what way we can serve the Lord best and then step out. Depart.
Start to go on in our wilderness journey.

Well, now, capital "C" is the organization of the march.

C. Organization of the March. ~~xxxxxx~~

That is Numbers 10:14-28. The Organization of the March. And here we have fifteen 15 verses in which we are told the order in which the various tribes came. Their order, their arrangement, who was the leader of each section. I am not going to take time now to read these 15 verses with you, but it is important to note that God considered it worth while in this book for our direction, this ~~xxx~~ ~~xxx~~ book for our guide book in our Christian life, He thought it worth while to put down the precise order and arrangement of the march, and the name of leader names of the leaders of the different sections. And I think that that being the case, we ~~xxxx~~ ~~xxxx~~ should take "1" under this -

1. The Importance of Organization.

The Importance of Organization. The Lord thought it important enough to give these 15 verses, even though He had already named these same heads of the tribes when they gave their gifts in a previous chapter, and in a still earlier chapter when they took the census. And He had described at Sinai ~~what~~ what order they were to march in. Now He describes that they did march in that order previously listed there. Organization has a great importance in the accomplishment of anything. If we organize our ~~xxx~~ lives we can accomplish far more than if we do things more or less helter-skelter. It's pretty hard to make a hard and fast arrangement because there are circumstances that alter it, and we have to be ready to dash to ~~xxxxxxxx~~ circumstances, as they develop. But the more we can make a definite organization and stick to it, the more we will accomplish for God.

And under the "1" then I put small "a"

a. Organization is Necessary to avoid chaos. It is necessary to avoid chaos. There are some matters of organization ~~xxx~~ that ~~xxxx~~ don't matter
