

getting plenty from the government to support them. And you go to the farmers and you go the other sources, and they are not doing work. Why bother because they all get a check from the government. It just shows the silliness of these ~~ideas~~ ideas that are extended so widely today. So utterly impractical. Well, of course the answer to that is, why not have the Govt. simply run it all instead of the corporations? And then the Govt. simply says, You do this, or you do that, you do the other. And if Jesus Christ were the supreme head that ~~might~~ might be a wonderful system. But in any other sort of an arrangement, you can be sure that the heads of the organization are going to become lazy, are going to be watching out for their own interests, watching out for their ~~relatives~~ relatives, not watching out for others. You are going to get a situation in which you are going to have graft, corruption, and laziness, and within a very short time you are going to go back to what you have 600 years ago.

The countries which have this system, the communist ~~countries~~ countries, would simply find it impossible to continue if it were not for the fact that they keep ^{their} ~~the~~ people ~~is~~ excited about the terrible imperialism of all of us, and also the fact that they can get things from us. Today wheat prices all over the country are going up. Railroads are making more money they they have made before. Why? Because Russia with its marvellous fields, and area 3 times as large as we have, an area that would be the granary of all Europe, under Govt. control, and under absolute Govt. direction is finding it impossible to feed its own people. The people will starve if they cannot come and purchase from this section of the world a third as great as theirs enough food to keep their people going. It -- We have a practical situation.

Well now the second point. The point of sincerity. I should really take half an hour on that and I have exactly one minute left. I'll probably run over a couple of minutes today although I don't like to run over much. But this second point is one that you have heard a great deal about. But I want to stress its importance

I remember a few years ago when I graduated from college, I went to Princeton Seminary. And there was a girl that went to N. Y. that graduated from the college and went to a school of social service. And she came down and visited us. We had a
