

on the battery to show the direction electricity goes in. After a few years they discovered they were totally wrong. So now they put the plus mark on the place which really should be negative, and the minus mark on the place that really should be positive. The understanding is complete changed. We still keep the old symbol, that would be too much bother to make changes.

There is practically nothing in the field of science or philosophy that may not be revised or changed. The only place where you can be get knowledge that is dependable and certain is in the revelation that God has given. That ~~is~~ <sup>isn't</sup> ~~the~~ <sup>the</sup> reason ~~why~~ why it is important that you come to seminary. A person who has been to a good Bible school, and who has a good ability in dealing with people, and who can speak nicely can sometimes go out and go into a church and present the Word of God and do as big a work as effective a work as for a perhaps as a man who has had a seminary course. But he is mostly presenting simply what he got from his teachers. He is presenting what he has heard before. He has a certain amount of truth which he is presenting and that truth may be tremendously important and he may do a very great work. He may do a greater work than most seminary graduates. But over the course of the years, new problems are going to arise. New questions are going to come up. New matters of vital importance are going to come up in which it is important that a Christian leader be able to say, Thus saith the Lord. That is why we believe that what we try to give you in seminary will make you much more effective in most cases than what you would be if you had not had it. We try to put emphasis on what will make your a better == on what will make you effective. But the great importance in seminary is what will give you the wisdom to deal with new situations that will come up in the light of the Word of God. Thus saith the Lord. Why bother with Hebrew and Greek? I have had people say to me
