We are accustomed to being able to go into the grocery store and get all these different things. We are accustomed to this very complicated civilization, and this civilization --- the young people in our colleges today are being brainwashed into thinking that the system needs to be destroyed.

I know some people who think the communist menace is the most teribble thing in the world. The communists are constantly undermining. The communists are apt to take over. I believe the communist maan menace is a very great menace. I believe there are spies from the communists trying to undermine us. I believe they are doing everything they can to get control; they might succeed but I don't think they will. I believe the communist meance is a great menace but I don't think it is one tenth the force that is the influence that has permeated our educational institutions in these last 50 Stewart Alsop in telling about this man -- Stewart Alsop is now 59 yrs. of age, and he tells about his talk with this young lawyer that evidently disgusted him pretty much with his impractical attitude. He said It all sounded to me exactly what I got as a Sophomore in Yale. It is what the edcuated class of our has been brainwashed great universities for the last 30 yrs. Today it #9 getting down into the high schools.

I was up in N. Penna. about 4 yrs. ago and therewas a small teachers college there and over some event there the students were out marching and carrying banners. The woman who was running the motel where I was staying had? ? a little girl? said, Look at that! In a few years they will be teaching my little girl." People are being brainwashed. You find it everywhere, today among our educated classes.

Now Nixon was elected by the greatest majority that any President has ever been elected by in history. That was just 1972. That election came from the mass of people who are accustomed to our American system, our American civilication. Are accustomed to it, and would like to see it continued.

Nixon went in there it that a desire to do away with a lot of excess government
