

then all of the claims of the Bible to be God's Word , well, they become rather shaky. I heard a man this morning on the tape who had given a message not long ago , ~~we~~ in which he started out and said that ~~we~~ he did not believe in the Bible statement of the resurrection of Christ, and he said he wondered how ministers there were who had the courage to stand up ~~and~~ and honestly declare that he didn't believe these ~~doctrines~~ doctrines ~~and~~ and then he ~~went~~ went on to say, Oh, he was afraid that a lot of ministers who would just stand up and give scriptural warnings and ~~a~~ old scriptural statements and then people would take them, one this way, and one that way and one the other way and they would go away with different ideas instead of a man saying forthrightly what he thought. And then the man went on talking about the confusion of our day and the tremendous dangers ahead and all that and then he ~~did~~ ended up with about ten minutes of doing exactly what he criticized the other ministers of doing . He gave a lot of beautiful statements about coming of the light and the glory of Christ and different things and when he got through I wondered what he was talking about. But it was exactly what he had very rightly criticized others for doing and then he ~~ex~~ did exactly ~~&~~ the same thing himself . Well, the Bible is God's Word and it is true . It's God's ~~guide~~ guide-book for us, or we don't have any guide-book. And if we don't have any guide , we just have darkness . Maybe a few more million years of floundering around , maybe an atomic disaster that's going to ~~put us back~~ plunge us back 300,000,000 ~~years-~~ years and we have to start all over ~~&~~ again. It's just like the picture , the cartoon that I saw once that showed two monkeys in the tree, and down ~~at the~~ on the ground there was devastation and they looked on ~~and~~ and said, Now we'll have to start it all over again. Well, what is ahead. I think we have a sure word
