

(record unclear 1 3/4)

... a young man came here who had had a good bit of mechanical drawing but he felt called of the Lord to the Lord's work, and had given up that work and come to Faith Seminary. He looked back and thought of the wasted years which he had spent in that work

After he was in seminary pastor he found himself involved in a building program, and he called on his knowledge of mechanical drawing, his understanding of these matters made it possible to built the building that his church was building at a tremendous saving from what it would have normally cost. Now he, of course, could not see that in advance, how the Lord was going to use him. And very often the Lord directs our steps, uses our energy in ways that we have no idea of, until at the end we look back (2 1/2)

And yet as a rule the Lord wants us/ to figure things out for ourself and to see how we can best use our time for Him. As a rule (2 3/4)

I talked with a Major - General in the Air Force shortly after the world war and he told me that he had been in charge of trainingⁱⁿ the air force in about half the ~~time~~ (3) United States and he said he found that with American men, if they didn't understand what they were doing/ it was very, very difficult to get them to put their heart in it . But if they understood what they were doing (3 1/4)

hired one of the best Public Relations persons he could find to take the material ~~and~~ that he gave and make it into a little book, which he gave to all the men he worked wth, to give them an understanding of what he meant.

Now in a seminary, we have a curriculum which/is worked out as a result of long experience (3 3/4)
