

possibilities

these possibilities. So that's the purpose of exegesis, is to take your knowledge of Hebrew and to look at it and say these are the possibilities. Then somebody looks at the passage and say so-and-so

but the original cannot carry that significance, that's not what this word means.

Now the original may have another possibility in addition to the one, but you can determine

So you see why exegesis

is tremendously important, ~~K~~ in knowing exactly what God's word means.

I remember the story about the man who was sick and the doctor came and said to the wife this is very important that we get exactly the right kind of powder (11)(11)

He said to the woman what did you give him, did you give him too much, did you give him exactly the right amount. She said I did exactly what you said, she said I didn't have a dime, but I used two nickels.

I'd give an examination and I'd say, parse all the verbs in a verse

and immediately I'd have five people come to me and say, did you want the verse translated or not? Well, all I said was to parse the verbs, I did not say to translate the verse.

But to read directions and get them exactly
