

class for a year and a half, and the Spirit of God got hold of that young man and woman and they got married and although they were not in what you'd call full time christian service at all, they organized Bible classes, they met in homes and they have had a tremendous influence in the community ever since leading people to the Lord, and the three godly sons they have raised are doing a fine work for God today. And that minister who had had an influence on that couple may have accomplished more with that than all the rest of his life, though he probably knows nothing about it. We don't know what part of our activity is tremendously important in God's plan, or what part of it does not accomplish so much in His plan.

But God wants us to work and be diligent in pushing forward for the work of God, and He knows what the results will be. Some who work, and toil, and struggle, and think how to advance the work of God and seem to accomplish little, in God's sight they do far more than some others who just step out and accomplish a tremendous lot. Because God puts some of us in a position, like an army that is going forward rapidly and conquering areas and Oh it is exhilarating, it is wonderful. And He puts others of us in an area like where the army is just trying to hold, trying to hold, trying to hold, and it is ~~XXXX~~ tiresome, its struggling, it is difficult. But it may be even more important than those who seem to have the apparent great success. We don't know what are the parts that are tremendously important, and what are the parts that are not. God is interested in our faithfulness, in our diligence, and ~~XXXXXX~~ He will use us in accordance iwth His plan, if we are ~~XXX~~ truly consecrated to Him; if we are truly endeavoring to make our lives count for Him.
