

it. A generation grows up that is ready to go out and picket the White House against interference in the Civil War in Viet Nam, and ready to go and ~~start~~ start a fight with the police instead of trying to overturn the whole social system of America. While men slept a enemy ~~is~~ sowed tares. Truly a terrible situation has come upon our schools. Now, the Roman Catholics I must say were more awake. And the Roman Catholics had gone very far in establishing schools in which people were taught the fundamental principles...It is only within the last few years that some of us ^{have awakened} /..to the point of starting Protestant..My little boy has gone for 11 years to a Christian school. When I think of the things he has to face. When I think of the things that ..he has ahead of him in life, I praise God that for 11 years he has spent a little ^{time} /~~time~~ every day learning ~~each~~ scripture verses from teachers who would not try to take down his faith but who would be interested in building ~~it~~ up his faith. But our Christian school movement ^{is} ~~was~~-tiny compared to the need, and we were very very late in starting in this direction at all. Well, there is much more that we can say about this extremely important section of an educational matter. I think that I will just read you another word from Rugg's book, page 264 where he quotes from the President of Columbia University. Nicholas Murray Butler, President of Columbia University, did not agree with the ~~teaching~~ teachings that were being promulgated by Teacher's College of Columbia University ~~at least~~ did not agree with the teachings that were being promulgated by ~~the~~ Teacher's ~~self~~ College of Columbia University, at least not at this point because in 1921 he said, A school system that grows naturally ~~is~~ in response to the needs and ambitions of a hundred thousand different localities will be a better school system than any which can be imposed upon those localities by the aid of grants of public money from the federal treasury, accompanied by federal regulations, federal inspections, ~~is~~ federal reports and federal uniformities. That is what he said in 1921, but today more and more they are succeeding in ~~being~~ bringing everything under federal, centralized control
