

It couldn't have been done 40 years ago, but you have had forty years of indoctrination of our people in collectivism and in anti-Christianity. I heard a man ~~in Armenia~~ at our meeting in Long Beach, about two or three years ago make a statement ~~that~~ that I had not thought of before but has impressed me very much. He said the leaders of America's industry today. The men ~~in~~ who are active, who are head of our great corporations, most of them are at an ~~in~~ age which they have been indoctrinated in collectivism. They have been taught that the ~~profi-~~ profit motive is wrong, and their conscience is bothering them, when you ~~thought that~~ saw how many of our great corporation leaders came out in our last election in favor of the ~~stendancy~~ toward greatly increased, centralized government of the candidates who represented them, I think that we see the results. We have slept and the enemy has sowed tares, and a man said to me. Or he said in our meeting in Long Beach. He said that even when many of ~~them~~ our corporations executive speak out ~~in~~ for the free enterprise system, he said in the back of their minds there were doubts as to whether it ~~is~~ was right, or whether they are not simply acting selfishly instead of acting as they should. America ~~is~~ has become greater, more ~~in~~ prosperous than any other ~~in~~ nation in the world, and it is due to ~~the~~ two things. It is due to the principles of justice, and righteousness built into our nation by our founders who ...and it ~~is~~ is due to the free enterprise system which ~~represents~~ rests upon the system, which rests upon the principle of the Bible. But we have raised a generation that was taught that these things were wrong. Now, we ~~must~~ must ~~carry on~~ hurry on to the second area of education, the area of the colleges, and in the colleges we have tremendous changes in the last 50 years. This indoctrination in the grammar schools and high schools has affected our ~~in~~ children and undoubtedly has affected many of them. A great many of them, if they don't go to college, forget it, they perhaps lose much of their interest in Christian things as a result. Because it is harder to get them interested in a vital stand for something true, but the place where that is doing the most damage is in those ~~the~~ who have gone on to college who have by it been prepared
