

profits of the large oil companies put together. And there is the Department of Education which seeks to bring all American education into one uniformity to inculcate collectivist ideas upon our people.

We can ~~make~~ our lives ~~and~~ and I hope he will to make this nation Christian. But during this week each of us has a chance to express ourselves. Do we want the conditions of the last 4 years to continue ~~another~~ another 4 years? If so, I give this nation another 10 years at most to continue before we become like Russia is today.

If someone such as the Gov. of California is            does much ~~to~~ to improve these ~~conditions~~ conditions then if he takes over ~~things~~ things have gone so far I don't know if he can do much to help it. We might instead of 10 years last 15 years, or last 30. I don't know. I don't know whether it can make a great deal of difference. But I do know this each one who is a Christian and is a citizen has a duty to vote and express himself. And if we lose our freedom, if American becomes like Ninevah and Tyre even sooner than England did after Hitler rose, if it does then may God have mercy upon us and enable us each to say that we did not ~~contribute~~ contribute to it. Let us pray.

O God our Father we thank you for the way you have led through history. We recognize that the glory of man is like the flower of grass. We look upon all the things we enjoy here which no other nation enjoys, and how long will we enjoy it? We do not know. O the way this nation has turned away from God we cannot be surprised if you do not allow it to continue as it is much longer. But we can have control over some things to some extent. Each one can do his part. Help us to reverse these conditions that are hurrying us on to Armageddon so fast. Hurrying us toward Gulag. Hurrying us to control by those who hate Christianity and who desire to destroy everything we believe. Help us to do our part, and in the end may we be able to say, We have not accomplished much but we have accomplished something and we have tried to follow as our Saviour leads us. We ask in Jesus Name. Amen.
