

relevancy whatever to world conditions. So what's ahead? Is the devil going to be the force of communism to say to us, We have every one of our missels targeted with ours. We can stop them all, we can destroy every one of them without hurting hardly any of your people, and after that you will be helpless.

Are they going to say to us, We would like you to stop criticisizing us for going into Afganistan. We would like to prove to you our power. Tell everybody to get out of Akon, Ohio because next week on a certain day we are going to destroy that city, and I think 3/4 of the people of Akron will flee, and a fourth would say, It's all foolishness, and stay there! They would then send a bomb and Akron would be just like Hieroshema was at the end of the last war.

Then they would say, Now we can do the same to the rest of your cities if you don't quit talking about Afganistan and let our comjunistis in to be sure we get the best results from your production for our purposes, and we put your men into our draft for our armies. And we set the Athiests. We give them the power to sieze Christians and put them in prison just as they are over in our country. All that could very easily happen. Our military experts say that ~~xxx~~ with five years of spending five times as much extra as Carter has recommended we could put ourselves in shape where we could resist a Russian attack. Will they give us the five years?

Hitler had to wait. He couldnot get across the ocean to us. Our men had plenty of time. There will be no time then. The devil can conquer what he chooses to accomplish h~~e~~s power is great. Yes, but God's power is greater. God == The devil can do nothing but what God permits. But do you think God will find it right to protect America after the nation has turned against him? After we have cut out any reference to God in our public school system.

At the U. of Washington a man was teaching Hinduism in a class, and a friend of mine went on to the grounds of the University to distribute tracts against communism and he was told you are not permitted to do that on these grounds. He said, Why not? They said, Wait a minute and we'll go and ask. They came back and said, These tracts you are distributing have quotations from the Bible and separation of church and state means you can't distribute them on the grounds of the U. of Washington.

We have a great number of earnest Christians in this country but they are a drop in the bucket compared with the forces of atheims and unbelief in our nation. You turn on your TV any time and people speak in the plainest way about things that would not even have been mentioned 30 years ago on TV, Our nation is sinking into the depths of degredation. Do you think God will spare our nation. Is there any reason why God should spare our nation? Perhaps it is for our good that we should go through persecution like the people of Russia have gone through. Like the Christians of China have gone through. Perhaps that is His purpose for us. Perhaps it is coming very soon. There is nothing we can do about it. Nothing we can do to stop~~e~~ it or to interfere with it. But the thing we can do is to get as many as possible to believe in Jesus Christ so they can stand up against the persecution. To get as many as possible into belief in Jesus Christ so that if they are
