

We land on our backs, useless. We fall to the ground, useless/ for further resistance. This represents his wiles. This is one of his wiles. To get our attention move from the great things of the Scripture to the lesser points. To get our attention focused on some of the thousands of matters that God ~~has~~ has not revealed to us. Complete or secure knowledge is only in God, and only can be found can be found only in His Word. Yet how often we are content, one of Satan's wiles, to get our attention away from the Word of God. We read a few verses of it, pray God to bless them to us, and then go on to use our own brains and efforts to attempt to accomplish accomplish His purposes. Satan will drag us into unbelief if he can, but if he ~~fails~~ fails he will let go he will cause us to fall back into fanaticism and into assuming attitudes that hinder the Word of God proclamation of the Word of God instead of advancing it.
