Well, think it through before you <sup>say</sup> that. Think of it seriously. Take it to the extreme. Say, if this matter is so vital in their minds, that they will not go along with me in it, do I think ~~it~~ it is vital enough that I should leave them on account of it? Think that through. Well, if it is that vital then, why you may have to sleep right out. But if you do, don't have a lot of bitterness about it.
