What great thinkers of th- ages have thought is not important. What is important is what the Bible says. Human ideas of methods and circumstance and accomplishment have their place, but far more important is the teaching of the Word of God. We believe in inerrancy. Inerrancy does not mean the Bible is to be put up on a pedestal and worshipped. It means that the Bible contains the truth we need to make our lives worthwhile. It is very tempting to take the Bible as a mere banner, a flag. I once read ==went into a modernist bookstore and saw a book written by a Methodist minister called, How to Become a Bishop without being Religious. I did not feel inclined to buy such a book but I picked it up and glanced at it, and looking into it I saw the statement: Whenever you preach, frequently refer to the Bible. Always say, The Bible says this, or the Bible says that. When you say that the people will be happy. They will look up and appreciate it. However after you say that, you can say anything you want and they won't know the difference but it will make ~~xxxx~~ them happy that you said that. This is a very sad picture of biblical ignorance of people in the pews of a demomination after it has had modernistic preaching for a while. Alas even our fine fundamental churches there is often very great ignorance of the Bible. We want you to get the graining so you can interpret the Bible for yourselves and get the truth ~~from~~ from it that God has put there. These truths are far better the way God gives them than the way any man can reproduce them. They are far truer than any philosophy or ideas that human beings can develop. It is just as appropriate to all the ~~xxx~~ conditions of life today as it was when ==as different parts were when they were written. That is why the realization of this led me to determine to give my life to the study and presentation of the Bible. I believe that is what the world needs. Not human wisdom, human ideass but the ideas that God presents in the Bible.
