

would go about and win people to the Lord and gather them together and build a church. I have a number who have done this. I think of what Pastor Ecklema
Eckelmann has accomplished in Ithaca. He had already had experience in two congregations. He felt a great burden for students. He got a position using the electrical training his training in electricity and electronics and began (nc) talking to students and endeavoring to lead them to salvation through Christ. Gradually through the years he built up a work until now he has a very sizable work among students and has been instrumental in leading many to come here to study. I wish I knew a thousand men with the consecration and zeal ~~with~~ of Eckelmann with the ability to support themselves in another but not to let it become primary ~~to~~ in their lives, but to push forward to establish a church and together to reach students or reach other people for Christ and build up new churches. We need a ~~gax~~ great deal of work of this type. Alas, there are comparatively few men who have the ability to do ~~this~~ this sort of thing, who have the enterprise and initiative to do it. Most need a start solid basis for a start.

Not long ago a fine young man graduated from the seminary and I asked him what he was going to do. He mentioned a particular group which he said would have an internship program which he expected to take. The men would assist various pastors, engage in Chn^e work, and every week would come together and have classes and discussions in internship training for pastor. When I saw him he was rather discouraged. He had looked forward very definitely to this ~~interak~~ internship program but when it came to being received into it he had to fill out 4 forms giving his views on a number of points of theology and of details of Chn^e activity. ceremony (?) There was a question of ceremonies on which he was perfectly ready to go along with the attitude that was characteristic of most in the group ~~he~~ but was ~~not~~ not convinced that it was absolutely essential and he stated frankly his questions and views on this particular minor point. He received an answer turning him down for the internship program.
