

so-called Apocryphal books contain much that is good but also much that is erroneous. In contrast with the actual books of the Old Testament, they contain much that is unhistorical, unscientific, or theologically incorrect. They are not books which were inspired of God. To bind them in the same volume with the books ^{that} ~~which~~ actually belong to the Word of God is ^{bound} ~~certain~~ to cause confusion in people's minds. All true Christians should protest against it.
