

At our last meeting there were more questions asked than in any class  
that we have had thus far. I believe that the reason for this ~~is~~ that it was immediately  
apparent how vital the matters that we were discussing are in relation to the attitude  
of the Christian Church toward the Bible. A number of the questions asked about  
the matters of fact that have been ~~fully~~ dealt with during the precious two or three  
sessions. I had laid the foundation of the facts at those meetings, ~~for~~ the conclusions  
we are now preparing to draw. People who had not seen the bearing of those  
facts had not altogether sensed ~~and now~~ <sup>them when</sup> we reach the point where those facts  
became vital significances, they ask questions about them.

There are many ~~of~~ ways of presenting material. Sometimes it is good to  
give conclusions ~~and try~~ <sup>to</sup> to make the entire bearing clear and then ~~present~~  
the facts on which this is based. ~~There are~~ <sup>in other</sup> In other cases it is good to present  
~~the~~ the facts and lead up to the conclusions that naturally flow from the events.  
Certain types of mind find it easier to follow through one type of approach, while  
other types of mind prefer the other type of approach. Since people differ in  
this way, sometimes I use one approach and <sup>some</sup> other times the other. However,  
I always ~~to~~ try to make it clear in my outline and in my presentation which approach  
I am using.

There were a number of other questions which starting with the material  
that we <sup>were</sup> ~~are~~ now presenting, went on to ask about the related matters that are  
of great significance, but that will naturally come in the outline a little further  
on. I thought that most of these questions would have been at <sup>our</sup> the last session,  
But we did not get to them. <sup>them</sup> However, I was glad to have these questions raised.  
They show that the people who raise <sup>d</sup> them ~~were~~ were actively thinking about the matters
