

they didn't think they were God's instrument. ~~to-punishes-sin-and-ei-wickedness.~~  
They thought they were doing it for their own advantage and God punished them  
terribly as described in the book of Nahum. ~~But~~ <sup>He will</sup> now they are gone, but God  
says ~~I am~~ raise up a different nation, the Chaldeans, that bitter and hasty  
nation which shall march through~~x~~ the breadth of the nation to possess the  
dwelling ~~the~~ places that are not the~~s~~. <sup>It</sup> You know I ~~rejoiced~~ when Franklin  
Rooseve~~it~~ met Winston Churchill on a ship at Atlantic and when they made  
that Atlantic~~x~~ charter and they said we are standing for freedom of speech  
and for freedom of religion, and from freedom from fear . We are ~~stad~~ standing  
for great principles , and I said How wonderful that ~~it-~~ is that we are going  
to stand, not simply for our side against that side, not simply for these  
people ag~~ains~~ the other people, we are going/~~te~~ <sup>to stand against the</sup> wickedness of Hitler, against  
Hitler's attempt to destroy liberty and freedom upon the earth. I said Isn't  
it wonderful that we should stand~~x~~ on great principles , yet even as they  
said that I wondered how sincere is it , ~~#4~~ really. How fully can I believe  
that ~~he~~ is going to stand by it because I knew what Roosevelt has already  
said ~~and~~ done in favor of the communist organization and for the communist  
effort and then, ~~wh~~ within a few months after that ~~x~~ that Atlantic~~x~~ Charter  
was practically forgotten, because Roosevelt linked arms with Stalin and  
stood shoulder to shoulder ~~with-~~ with one who was every bit as much against  
any freedom of speech or any system of religion as Hitler had ever been and  
one who was just as cruel as Hitler and on an even greater scale , and it  
seemed to me that we took a great stand on idealism and then we turned around  
and linked arms with those who were against those principles . <sup>It</sup> And ~~wo~~ when  
the war ended and Hitler was destroyed and people said now the world is  
safe for peace , now ~~x~~ we don't have to worry ~~any~~see~~~~ anymore, we can destroy  
our armaments, well, it struck me that you don't bring peace by linking  
arms with those who are the enemies of justice, the enemies of freedom ,
