empires, one in the east and one in the west, thought supposedly one empire but wiht each emperor having contol in his onw territory. Now the Germanic tribes have come in the end of the prevous century and early part of thisone we have notcied haw they have flooded across Italy , Spain , France, African and all of this area, and now the African the German tit's tribes have gotten such control in this area that one of them held the emperor , at the middle of this thet fit century , absolutely under his control, the emperor was just a pupet figure, ustile finally there was an emperor, an young man of no particular influence jut a pupet, he was only in for a year or two, but his name is interesting because his name is RAmulus Augustus, and Romulus was thw first king of Rome back in the times before we have much reliable information, he is the first king of Rome and Agustus was the first great emperor of Rome, and this man whose name is Romulus Augustus but who is otherwise not particualry importance, is considered the last emperor of Rome, the old Roman empire, that is the Western section of the old Roman empire, Becuase this man R.A. was pupet ruler and there was a germanic chief named Odacier, was much mor important actually , and Odacer said what is the point in keeping this pappet figure, when I am actually I and so they dethroned R. A. and that year 476 A.D. is usually considered the end of the Western empire. And Odacer ruled from 476 - to 493, so hs is considered as a rather fuse ruler, not particularly frieddly to the bishops of Rome, he was an Arian, and he, tolerated the bihsops of Rome and allowed them to run their church pretty mcuh as they wanted only aceasionley interference. But there was another tribe of the Germans called the Eastern Goths, which was up in the Balkan region at this time. The Visa Goths, the Western Goths, under Alleric were the ones who plundered Rome in 43, you, IN 410. You remember that was the thing that gave rise to Agustine's book The City of God, was the impression made on the world by the first time Rome had been plundered in meny many centuries, now the Western Goths had plundered Rome but they had withdrawn from I aly and they had gone over to Spain and after the VAndall left Spain the the Western Goths went in and held Spain and they were holding Spain now
