

you ~~want/the/~~ noted the backing of the NCC that one should become a member of the NCC of India and you can see what that means, bringing into cooperation immediately with the forces of ecumicalism and these liberal forces and with all that you have to face in that respect, you can see how impossible it was and is for any fundamental missionaries and missions. And the same thing took place in China. By the way of illustration, I don't want to take too' much time with this, but the same thing took place in China ~~in/~~ when the World Church Service sent huge supplies for relief and rehabilitation, the suggestion was made to these fundamentalist churches of China that they could receive aid if their church had been destroyed, they wouldn't perhaps receive a new church building, on condition, of course, that they would join in the Church of Christ in China, which as I say was sponsored and aided and helped by the NCC of China. Now that is the situation that we have to face all over the world. I can prove these things by documentary evidence, although I am not giving that today, but that is the situation that we have to face everywhere and it has caused very great apprehension in the minds of fundamentalists, missions and missionaries and mission boards everywhere. come to Kenya, how we over there? Well we had a Christian Council of Kenya which is an affiliated body of ICC, not recognized yet as a full member of the IMC, but when we come to examine the Kenya Christian Council, we find that it is just an indiscriminate body, made up of various missions, the Africa Inland Mission, the Seventh Day Adventist, the Church of England mission, the Methodist mission, and various other missions, just a general body. Now as secretary of one mission board and secretary of one mission board, I don't want to, it isn't my problem to criticize another mission board, but I think that facts can tell us the face of the situation and I am perfectly willing to tell you these things because I have read them all before the home council of the African Inland mission, for instance, we have spoken very frankly about these things, but the African Inland mission, for instance, was disturbed and is disturbed by that situation
