

I said was on the hotspot just at present. (Jack Armes is speaking) May I just say one word of truth (laughter) the question is why is the door closed in Africa? The general answer has been given, but there is a further answer that I would like to give and that is the reason it was stated in the last letter which we received just a few weeks ago. The chief immigration officer for Kenya stated that they were pleased to inform us and so on that they were refusing Mrs. Armes and me permission to come in on the grounds that the signing of the certificate would bring to the prejudice of the inhabitants generally of the colony. Now, I haven't sharpened my fangs, I should have done that before I came here. But that is the reason why we couldn't get in because the signing of the certificate would be to the prejudice of the inhabitants and as Dr. Holdcroft said the appeal has not been formally written, but I am sure of one thing that will be included at least it has been suggested and that is this that the independent Board has established a work in thirteen fields around the world and as far as other fields, the work has not been to the prejudice of the inhabitants generally, it has been for their welfare, for their physical welfare, and for their spiritual welfare and the very thing that Africa needs they are keeping away. They have asked for medical help and Mrs. Armes was appointed as a possible help towards establishing a medical work, she is a trained nurse and one thing they have asked for they said they can't have. The thing they need is not only medicine, but they need the Word of God and that is why, of course, appointed because I had been training, and I praise the Lord for Faith Seminary. The thing that they want and the thing that they need they say they can't have because those coming in are to the prejudice of the people. Well, someone has said that it is to be dismissed as absurd, if it was not for the fact that it is so serious. There is a lot more in my heart that I would like to say, but we ask you to pray. A lot of folks say we are so sorry for you, what a tragedy. Now, don't feel sorry for us but pray for us and I know the Lord's will be done if we look to Him. *(Handwritten signature)* If you —
