

preached a wonderful sermon on her great loyalty to the church and to the foreign mission work. And so under the Presbyterian Board of Foreign Missions, they are building a chapel in memory of her. Now that is ~~an~~ one of many many such things that have happened.

You leave your money to an organization and the organization can change. You leave ~~a~~ your money not to an organization and leave it to an individual or a smaller ~~group~~ group, and the smaller group can change. Miss Helen Gould, who became Helen Gould Shepherd, she gave quite a large sum of money to a college toward the ~~teaching~~ teaching of the Bible in order that the ~~people~~ people would have the Word of God. And Mrs. Shepherd was a fine Christian woman who was devoted to extending the knowledge of the Scripture. And she gave this money to this college, and it endowed the Department of Bible, to ~~have~~ have highly trained people teaching the Word of God. And after some years, somebody who graduated from the college went to Mrs. Shepherd ^{and} said, they are teaching unbelief, they are teaching the higher criticism, ~~and~~ they are denying the deity of Christ, they are tearing down ~~everything~~ everything on unbelief, most of them are losing their faith. And Mrs. ~~Shepherd~~ Shepherd went to the college and complained, and found that there was nothing that she could do. Her money was given, there was absolutely ~~nothing~~ nothing that she could do about it, and she didn't want her money to be devoted to the tearing down of the faith, but they said that her money was given and she had ~~no~~ no control over it. Though, finally, they agreed to give half of it back. And just to please her, they agreed to transfer the money to the ~~Department~~ Department of Mathematics. She thought it couldn't hurt that much. But she had given the money for Christian teaching.

Now these things have happened over and over again. And when you give ~~money~~ money to build a good thing, you don't want to think that the people who come in and take over are going to have the exact opposite view of what you did at one time. But how are you going to do it. Well, that is a vital thing for Ch. govt. to find some way to protect property rights of the congregation. Now, we, in the Bible Pres. ch. we have tried to mix this with two aspects.
