

man there who immediately he thought was wonderful. He just came around and was so wonderful in every way that he was just thrilled with ~~the~~ this fellow, having ~~him~~ thought so well of him. And he was well impressed with the fellow, and he persuaded the church to elect the fellow president of the board. And the fellow got the ~~key~~ key position in the control of the church. And ~~within~~ ~~within~~ ~~six~~ ~~months~~ that man turned violently against him. He did everything he could to get him out. He propogandized ~~against~~ against him to everybody there, he wrote letters to all his firends, letters to the ~~firm~~ friends of the church everywhere he went. Every kind of an excuse ~~he~~ he could think of to hurt him. And he had ~~put~~ put him in that position, through his influence. It is very very easy to make mistakes in judgment about people. And the people who take ~~the~~ to you the most quickly may be the most changeable people and who will turn against you quickly. And so, it is well to think of these dangers, and be prepared for them. Not to get excited, but to ~~be~~ be prepared. In the time of peace, prepare for war, so they say. I wouldn't say that. In time of peace, look out for the things that may bring the war.

(question) In the Presbyterian Church U.S.A. there is two seminaries.

There was Union Seminary, not under control of the denomination, ~~but~~ ~~not~~ ~~under~~ ~~control~~ ~~at~~ ~~all~~. They had a ~~seminary~~ ~~Union~~, not under control at all, they had a seminary, Princeton, which was under control, and both of them went bad. Princeton stood ~~the~~ true, after Union went bad, and then the denomination came in and forced Princeton to turn around. And it just shows that a system doesn't guarantee being the continuance of any organization. But if the Presbyterian Church U.S.A, ~~when~~ when Union Seminary began to get unsound men into its faculty, had immediately said, if you don't clear that man out and get thoroughly sound men in, we are going to have to announce that we don't think the presbyterians ~~should~~ should stay there. And then the thing would have been examined very very carefully, Union might have gotten rid ~~of~~ of the start of modernism. They might not have. ~~If~~ ~~the~~ ~~minute~~ ~~an~~ ~~unsound~~ ~~man~~ ~~got~~ ~~in~~ ~~the~~ ~~trustees~~ ~~they~~ ~~had~~ ~~objected~~

In Princeton, if the minute an unsound man got in the trustees they had objected
