

is no way in which a college ~~can~~ can be absolutely safe. There is none. But if you don't let modernism get started modernism ~~g~~ can't get control. There is, say seventy five years ago there were 300 fine Christian colleges in the U.S. Very fine colleges, standing for the ~~W~~ Word ~~of~~ of God, sending ~~up~~ ~~up~~ ~~up~~ out people who believed the truth. And one of those colleges was Wheaton College. Now, Wheaton College, ~~in~~ during the thirteen years Dr. Buswell was president of it, ^{tripled} ~~multiplied~~ in size and probably tripled in ~~the~~ buildings and property. Well, that was a great achievement which he did as president, to build the college. But it was by no means a unique achievement, because I know of a good many other colleges which made the same sort of step forward. But Wheaton College is the only one I know of which made a step forward in ~~an~~ such a short ~~time~~ time without losing its distinctiveness. And the ~~reason~~ reason for that was ~~it~~ because Dr. Buswell devoted himself to what is the major problem in the college as in the church, to determine the ones who are to do the teaching. And Dr. Buswell was very very careful not to get people who were actually in a straight jacket, but to encourage ^{get} disagreement on minor points. But to ~~give~~ people who were true to the Word of God. And Dr. Buswell told me, he said, I had a man come to me once, and he applied for a position in Wheaton. And I asked him what he believed about this and that and the other thing, and went into all the points ~~of~~ of our whole statement of doctrine. And he said ~~there~~ there wasn't a single problem. He was just just right straight down the line with them on any single problem. And he said immediately I got suspicious. Because, he said, I didn't remember any case in years where there had ~~been~~ been a man where there wasn't one problem. He said, usually there is one point, somewhere, that he is not quite sure he agrees with us upon. And we have to talk it over and find that he is sufficiently in agreement that it is all right to have him work with us. But he said, this man was just right straight down the line with us ~~on~~ on everything. So, he said, ~~if~~ I got suspicious. So, he wrote letters to some people in a place ~~where~~ where he had been five years before, and made some inquiries. And he found out that at that time he had been teaching what was absolutely contrary to our viewpoints on major issues. And so he said, I saw the man again, and I said to
