

the Medo-Persian ~~M~~ empire, he foresaw the Grecian empire, and he fore~~aw~~ saw the Roman empire in ch. 2 and 7, and therefore, the little horn of ch.7 which comes ~~out~~ out of the Ro~~man~~ man empire, cannot be described as the little horn of ch.8, which comes out of the Grecian empire. They must be two different things, that's what your conservat~~ives~~ives think. Well, now, what I am asking you to do is to look at the bo~~ok~~ok of Daniel and see it, and to tell me this, what does the book of Daniel teach about the Med~~ian~~ian and Persian empire? What does it teach about that? Now, for this study, you may choose to make use of Farrar's commentary? That's why I recommended the ~~to~~ others not use it. Farrar, a Godly man, wrote a wonderful life of Christ, presents this view very strongly in his commentary3... I hope you will make some use of Farrar's commentary, and how he presents it, and what he says about it, and3.... Persian~~N~~ empire. You may find some help in Montgomery, you may find some help in Young. But the main thing I want you to do is to study it from this viewpoint. What does the book of Danile say about it? Does the bo~~ok~~ok of Daniel teach that there was a Median empire, and a Persian empire, or is there anything in the book of Daniel that suggests that it believed in a Medo-Persian empire? What do you find. Does the bo~~ok~~ok of Daniel teach..., what does it say about Cyrus the Persian? ~~What~~ does it ~~say~~ say about Darius the Mede? So you see there ~~are~~, you might say, five questions to determine from the book of Daniel, you can write, if you want on a piece of paper, on the top of a page, you can write Persians, and on the top~~of~~ of another you can write Medians, and on the top of another Medo-Persians. On the top of another Darius the Med~~ex~~ex, and on top ~~of~~ another Cyrus the Persian. And then you can start at the beginning of Daniel, and go ~~gh~~through, and everytime you find something that goes under one of these categories, you ~~find~~ write it under that category. Now, that would be a good way to do it, but perhaps from the viewpoint of saving time, it would be better to use a concordance. Take the concordance and look up these words, Persian, and see if the verse definitely teaches a Persian empire, and if it does you put it down there definitely. (discussion of ~~kp~~ process ...5....) Spend the four hours on a study of the book of Daniel, getting an idea as to what the evidence
