Now, ~~in~~ I'm not ~~interesting~~ interested here in settling the matter, I am interested in knowing what the evidences are. And so I would like you to say,6....., get all the evidence you can in any direction, and then draw your conclusion from it. Don't jump to a conclusion until you have all your evidence. The same way with Darius the Mede, and Cyrus the Persian. Does it show that after the conquest of Babylon there was the reign of Darius the Mede, the Median empire, and then there was the reign of Cyrus the Persian? Does it show that/? Or is there any possibility of it being interpreted in a different way? I expect you all know a great deal more about the book of Daniel now than you did ~~the~~ two weeks ago, because you have done from four to six hours of study....I am interested in our ~~us~~ spending time on those matters which ~~are~~ require assistance to understand them properly, and so I don't think that there is any necessity of our going over in class every detail of the discussion of the history in ch.11 of Alexander the Great to A.E./ You have gone over that. And what I was interested in there wasn't so much your knowing the history inbetween, it is a long history which is not particularly important to us, from the viewpoint of Bible study, but was for you to see what the different commentaries regardless of view thought was the meaning of those verses, and I think you found that regardless of the background of the commentary, whether it was conservative or liberal, premil or ~~am~~ amil, or postmil, or what it was, that ~~the~~ the commentaries agree pretty closely with exactly what everyone of those verses meant from Aleander the Great to AE. Question....AAM: I haven't looked into Keil on this particular matter, I will certainly look into him, but I think you found that practically all commentaries, I am very much surprised at
