And if the Assyrians take a motion, they can destroy the Judah, too, because they have been able to do it with Israel, and Israel is much stronger than Judah. So that, there is a menace which may never bother, but yet which may bother them, and which has been _____ the kingdom to the north much stronger than they. Then they have much greater realization of what exile means that they haveⁿ/ever had. You say to our people here, you say, they may drop a bomb on the nation. We may have a war here. Well, most people (will say), we ~~never~~ had anything like ~~this~~ this here. So, I come to this nation _____ war was one hundred years ago. And this northern third of our nation had no direct contact with _____ then, except those who were in the army forces, and therefore when somebody talks about ^{the} ^{ity} possibil/of wars coming, it seems a sort of vague, a sort of distant to us. But right here in Canada, if Russia would conquer Canada, and a few Canadians were to escape, ~~this~~ the United States Intelligence will tell us about what they have been through, and then the forces ^{were} ~~are~~ would go up, and some of us would go up there and see the desert there, see what happened there, and realize that that ^{could} ~~is~~ /come to us. If _____ that _____ happen, it would make the possibility much more real to us. Well, now, ~~this~~ making it seem more real to us, making more people accept Isaiah's message from this import, but perhaps there are a large number of them who are truly saved in the group. Now ~~Isaiah~~ Isaiah is speaking to the group of people whom we call the godly in a general sense. They are the people who are concerned about the future of Israel, They are the people who realize Isaiah is a ~~this~~ prophet from God, and what Isaiah says is true. Isaiah has said, you will not go into exile through the Assyrians. It is the Babylonians that are going to take it, *and they believe that.*
