Whatever ~~you~~ other things you find, put under h and and discuss/ it, and then of course, you can do that in a few minutes that part, then study it through carefully, and have time to study commentaries quite a bit _____.

If you want to know most of them from Hebrew. I don't mean that, I am not interested in ~~writing~~ your memorizing a lot of words, but just immediate _____ name, meaning of it, but/you know the forms of the words, and where those words that there are a couple of possible meanings/
