you meaning one person or you meaning many persons. You say that you meaning one person--and--you--mean which you know intimately and ...you can't translate it in the English. In English...in Fact, in German the person that means you also means ..same word so that I was ~~walking~~ walking with a man my second day in Berlin and we can by the ...when I said they are going fast he took me to mean they are going fast. Because there is a distinction in the English there that you don't have in the German. Well, now, here we have ~~a~~ ~~an~~ ~~distictio~~ ~~dist~~ distinction in the English that isn't in the Hebrew--and ~~x~~ now, to me ..you listen and you go there, and you listen and you come there. If we see,...

If you say somebody eats good, they would think that you meant eat well. they think you were using an adjective as if it were an adverb. And the reason why eat good doesn't make sense in English is because in English an adjective is an adjective. --We do not accept ~~x~~ any adjective in English as a noun, except ..we say the living and ~~ix~~ the dead. Now, in German and in Hebrew, and most other languages we use an adjective as a noun. And so good can be something that is good, eat the good things that God has available for us, We say the living and the dead , but there is no...Now, in German and Hebrew, most other languages, they use an adjective with a noun. ~~Sim- Ex~~ But it doesn't mean good things. It means ...Now, we do that in English with the word ....there are a few cases ..we wouldn't say the tall, ..we do say the good of the ~~x~~ land, ..eat that which is good is a queer way of putting it...and each good thing...now, that is very possible ...and you have here an imperfect with a Waw Conjunctive...however, there is a ~~xx~~ rule of Hebrew syntax that the Imperfect with the Waw conjunctive or even the Perfect with the Waw conversive, when used after ...quite genererally it expresses not merely the hope that will follow from the action but includes in itself the expectation to perform the action and thereby produce...so this can be ...each
