

This queen mother of Judah...and she saw the chance to kill all the royal seed. And ...somebody took and hid ~~Josai--Josiah~~ Josiah, ~~from~~ the one killed (Niphal Participle). Now, it doesn't mean the one who had been killed, ~~it~~ from among them they took one and hid him, there would be no point in hiding Josiah after he had been killed. It is from the ones who were to be killed, the ones who it was her order that they should be killed. And so the Niphal Gerundive idea...these are the mercies of David which are to ~~be~~ made sure, and they are to be made sure ...when Isa. 53 is fulfilled, that is what will make sure the promises that come through David. It is definitely past participle. So the sure mercies of David may mean ~~that~~ the promise is to David, the promise which is going to make ~~sure~~ sure, the promise that is going to be fulfilled. Yes, just like when we had ...an adjective. instead of ...~~we~~ maybe you could ~~rapidly~~ rapidly read us the next verse Mr. Butler. It is very hard for us to remember where /...~~and~~ so they are easily confused. But this is not...it is anotherand _____ is a people but it is nearly always used in the plural....to say that these two men are going to be ancestors to two nations, so it is used only five...times and in all other cases it is always used in the plural, and the word does not speak specifically of the mercies of Israel. Again, I have ~~established~~ established...I have given as a witness of his... you see it is construct ..a leader and a commanding...one who commands people, so it shows the world-wide outreach of the ...and who is the him.

E12

For next time--I see it will ~~take~~ take us quite a bit more ~~time-on~~ time on 55--let's make it only the first two verses. Yes, continue on 55. We had all of 55 assigned today... but take just the first three verse of 54. 54 is a little harder, but we will do it more slowly. But we want to finish...I hope that we can ~~get~~ get over that much.
