

E-21

I do not know whether we have any evidence or not, / whether it is something cultivated wildly or not. Certainly in our present . . . the myrtle tree may be cultivated... but normally . . . myrtle tree... I do not know. Thorn and brier, of course, grows wild here in the desert. / Desert plants and- or desert trees ~~you cannot~~ the chances are that they normally grow wild... whatever they are the desert trees... / perhaps by analogy here is spoken of .. rain and snow coming down from heaven. Think of the plants that grow ... perhaps it goes back to the picture... Here is the desert where very little water you have certain peculiar desert plants... that grow and that does not need much ~~ew--~~ water... do not produce much ... either. And then, the area in which the water ... you get the possibility of other plants... It is very interesting ~~that---I---tk-~~ to go out into the desert and stand on a / mountain, and ... a lot of plants and mostly desert/..plants. Then the extreme... or even a place ... with no water ... no tree, no water, no plant... why, beside the stream... wherever you see \_\_\_\_\_ you know there is water. The figure might be there of the ... the desert... the figure might be there of ... the desert... So, the Lord's work is going to be accomplished ~~---~~without his word... just how this is going to tie in. / with exile/ I do not know... You would think that these people talk ~~of the exile~~ of the return from exile. People say... you go out in ~~pa~~ce. You go out in joy, You are led forth with peace, and ; you will return home. And you will have habitations, and you will be back home and build those cities. You will have secure habitation. And the new temple and the new city and all that. And there is no mention of ~~ence~~ anything like that. The only refer/ to the exile is s very ~~flexing one~~ pleading one. If there is... you will have secure habitation... and new temples and new cities and all that. But there is no mention of anything like that. The only refer~~ence~~
