

Try both ways and see which makes most sense. What is the word right after it--what does it say? We were just asking whether ...if it is the sign of the accusative, it is he gave wicked ones. If it is with , it is He gave wicked ones. And each makes perfect sense. He gave wicked ones or He gave with wicked ones. Well, I would say that in my observation that is ~~normal~~ normally used with words that are ~~definite~~ definite but as to whether it was impossible to use it with an indefinite, I would require more than the word of any Elementary Grammar to prove it. It would take much more than that if any Elementary Grammar...it is humanly impossible, and in a case like ~~x~~ that for an elementary book, it has to be examined very closely--one may say that it is usually used, ~~k~~ if one says ~~the book~~--now I have not ~~check~~checked whether ...the only way that you can prove it is to ~~examine~~examine the ~~os~~ cases. If you were to go through the Bible and ~~examine~~examine all the cases and see that there was no question that _____. which had an indefinite, then I think that you would be justified~~x~~ in making it as definite a standard as possible, but if you found that three or four ~~xxx~~...now, with this you have many many cases. But if you had --it is entirely possible that a word may ~~x~~ be used in one of two ways, and ..the other one doesn't happen to ...and yet it might have been a very common usage in speech. So it is hard to make a very ~~g~~ negative rule. You see, that is what they ~~do~~ do with this "they shall sprinkle many nations. They have 24 cases of sprinkle and if all ...sprinkle-~~water~~ they never say sprinkle the --so it ~~msu~~ must mean startle, to g...it is a tremendous jump. But in English you could easily find...~~to~~ you ~~el~~ could find 50 times...~~ax~~ the word sprinkle meaning to sprinkle water on the lawn or to sprinkle blood on something or water on something, always with the object of the the sprinkled... and ~~xxx~~ you have no right to make a rule, you cannotbecause your 51st case...it is ~~just~~ such an
