

wonderful organizations. These organizations have millions of people connected with them who go to them because their parents did, and their grandparents, and their parents and their grandparents received the Word of God, and fine Christian quality ingrained into their lives, and these qualities, many of them have been passed on from their parents to this generation, and they know one part of their parents' righteousness was to go to church, and they ~~xxx~~ keep on going, but today in so many cases they get the stone instead of the bread, and the result is that ~~xx~~ today you have a situation which ~~xxx~~ perhaps has never been exactly ~~x~~paralleled. He said it sort of seemed to him a little bit like what his ancestors had been accompanied to. He says, I used to hear my grandmother talk about the Holy Spirit. Here today I am hearing people in church talking about the Holy Spirit, and he hadn't heard it...8... And you have got a generation which is going to institutions where they are being given something that is very different from what they/ previous generation got, and they are being led
