

of the wonderful illustrations of this. How God dealt with great men in OT times. In just about every case they had their eyes upon the unseen. They looked for a country. They looked for a city that has foundations. They were pushing forward to build up the body of Christ.

May God enable us, each one, to make our lives count for building the body of Christ, for leading souls to know Him and for helping them grow in grace. May he lead us each one to realize that even as we help others that we need each to go back every day to the foundations of our faith, and make sure we are building everything upon what Christ did for us when He gave His life. And that we know we are trusting in nothing else but the blood of Christ for our eternal salvation and going back to see whether God is enabling us to make progress day by day in the knowledge of the things that are unseen and in the relating to the importance of temporary things that are seen.

Our Father, we thank you that the things that are unseen are eternal. They are lasting, they are vital. But also we thank you there are also the things that are seen and we must put them in their relation to the things that are unseen, and we must live our lives in relation to the unseen in such a way that we accomplish the utmost possible for our Saviour.

We pray for our land on this day. We pray that in PA. this day you will give \_\_\_\_\_ among the voters that your will may be done. We pray for our country ~~we~~ that it may not fall to those who wish to destroy it or that=== but that it may continue to be a bastion from which the Word of God can go forth.

We pray that you will help each one of us in the days ahead ~~xxxxxxx~~ if our Lord carries, to make our lives count for Christ. We ask in Jesus' Name. Amen.

Don't forget these tracts out there. If you don't need them for two or three years the time will come when you will be mighty glad to have the information that has been gathered together in it.
