

working of any organization ~~of~~ whatever. And it is important for the working of a church.

A church of necessity, if your organization becomes very large, there are buildings which are owned by it. Buildings in which you are to carry on. How is the direction of those buildings ~~to be met~~ to be met? Now, of course, it is vital to protect them from destruction, to protect them from being sold, to protect them from being used by people with purposes opposite from those of your organization. But it is also important to work out a method of handling the cooperation of the members of your group so that the buildings, they are not using the building in such a way as to ~~interfere~~ interfere with each other. The proper use of it. It must be decided who has the authority to say who can use it or when they can use ~~it~~ it. It is usually good to have a clearing house, someone who isn't a dictator, to say / this is what we want here, but ~~is~~ who is a judge, perhaps, to say this is something which is in line with the proper use of the building, this may be done. And here is something which is not in line with the proper use of the building, and this you cannot do. Or here is something ~~thing~~ thing which is in line with the building, but not as important as ~~this~~ this other purpose, and they can't both use it at the same ~~time~~ time, so you will have to say that this one is not ~~to~~ to be used.

Once you have any property in an organization, this second phase becomes quite important. And you will find members of any organization who take certain aspects of this and say that is what matters, that is commendable. And to put them in their place, and to tell them ~~no~~ courteously but plainly no, ~~there~~ there is a certain importance in this, but it is not the main thing, is a vital function of govt.

Now, then, of course, there is this third ~~function~~ function of govt., the function of direction. The election of the activities. And the Roman Catholic Church theoretically commits the ~~entire~~ entire direction of the church ~~into~~ into the hands of the pope. There is a book which I saw advertised, telling how the pope and the ....(12) direct the activities of ~~Roman Catholic~~ Roman Catholic churches throughout the world. The center directed like an army. You tell
