

He had == has in sotre of whom He says that they had not been called by His Name.

In Romans 10:20 Paul's quotes Isaiah 65:1 as showing that God had predicted the turning to the Gentiles. Even without this ~~error~~ corroboration it would seem reasonable to consider that the passage from 63:7 to 64:12 is a picture of a wrong attitude taken by those who claim His blessing simply on the basis of ancestry or of previous relationship rather than on the basis of a penitent heart seeking to be brought into line with God's desires.
